[440-867-8880](tel:440-867-8880) · brandon.slaght@gmail.com · brandonslaght.me · github.com/slaght

Senior Salesforce Developer with 8+ years of full-time experience building out solutions for clients. Expert in server-side, front-end code, and CI/CD pipelines. Proven leader who mentors teams, owns architecture decisions, and delivers solidly-built production-ready features.

EXPERIENCE

ACCENTURE FEDERAL SERVICES

Senior Salesforce Developer

REMOTE

May 2022 – Present

Department of the Interior

- Led two Salesforce implementation teams as lead developer, managed sprint work and meetings with clients to ensure the application was well architected and deliverables met client needs. Owned implementation and testing of the more technically complex and challenging user stories.
- Built out complex proof-of-concept systems to assist account teams with winning new contracts and recompetes.

United States Department of Agriculture

- Designed and implemented a CI/CD platform for a major project, automated deployments across 4 environments, and led training sessions for 20+ stakeholders
- Cut release cycle time by two days and production defects by 20%.
- Mentored 10+ junior developers and assisted them with their user stories via code reviews and working sessions.
- Created a public facing site using Salesforce CMS to host rule documentation for Farm Bill applicants.

SALESFORCE (ACUMEN SOLUTIONS)

Technical Consultant

INDEPENDENCE, OH

May 2017 – May 2022

- Worked on a project team that developed implementations of single enrollment systems for several major cities across the country which currently serve over two million students. These projects were developed on Salesforce and AWS platforms.
- Contributions to both the company include architecture/code reviews, leading technical training, and interviews.
- Independently managed a team of five developers, providing oversight and guiding career growth.
- Developed full-scale continuous integration system handling automated deployments for eight clients built on GitHub Actions. Conducted training within the project team and wrote extensive technical documentation on the system.

PROGRESSIVE INSURANCE

Apps Software Engineer - Intern

MAYFIELD, OH

June 2016 – August 2016

- Brought new features to their highest revenue site and migrated & redesigned that site from Web Forms to MVC.
- Fully participated on a production team for both projects, including code reviews, standups, and milestone meetings.

- Redesigned three internal-facing websites, including the main landing page, using Bootstrap and migrated them from ASP Classic to ASP.NET.

QUALIFICATIONS

- Familiarity with the software development lifecycle, from planning to maintenance.
- Experienced in modern front-end web frameworks and web best practices.
- Platform Developer I and Tableau CRM & Einstein Discovery Consultant certified. Trailhead Ranger.
- Strong experience with all key parts of the Salesforce platform including LWCs, Apex, and Digital Experiences.
- Comprehensive knowledge of CI/CD tools such as Bamboo, GithubActions, Jenkins, and version control systems.
- Experience with agentic AI for local development, automated testing, and documentation generation.
